**Aldelo Systems Inc. Delphis Software to Provide Online Ordering**  
*Aldelo Systems, Inc. and Delphis Software announce certification*

**Modesto, California, March 11, 2009** - Aldelo Systems Inc., the leading provider of low cost, feature rich and easy to use restaurant POS software solutions for the hospitality industry, has certified Delphis Software's integration to its Aldelo For Restaurants solution.

"Aldelo Systems Inc. is pleased to partner with Delphis Software," stated Harry Tu, CEO. "Using Delphis Software's AROS technology, restaurant customers will have the ability to order food online for takeout and delivery directly from a restaurant's website. Online ordering features will benefit the restaurant by improving efficiency, increasing sales, and increasing customer loyalty and satisfaction."

"It is very rewarding for Delphis Software to be certified on the Aldelo platform," Dr. R. David Brown, VP of Technical Sciences, stated. "Aldelo has an impressive suite of functions and capabilities that will further enhance our product offering to the online ordering industry. Aldelo's engineering staff and technical support teams were outstanding during the certification process and we look forward to a continuing close collaboration."

**About Aldelo:** Aldelo Systems Inc. develops software solutions for the hospitality industry and is a leading provider of point of sale and management systems for independent and chain establishments, including restaurants and food and beverage operations in hotels, resorts and clubs. Aldelo has over 40,000 installations in 15 countries, and manages a worldwide distribution network of more than 400 dealers, which enforces the company's International position. The Aldelo® For Restaurant software suite offers a complete set of solutions to effectively manage restaurants of any size, earning a reputation for innovation and excellence by meeting and exceeding the needs of its customers.
